

ECOS

Number 5

August 1975

Making oil from coal	3
Troubles aplenty in our cotton fields	10
Coming to terms with cyclones	13
Outlook—A key to our climate?	20
Spectrum—A paper crop—A baby echidna conserves its energy— Finding land's potential	23
International trade, and conserving our wildlife	26
Keeping a watch on cadmium	29
Back box—Ozone and bushfire smoke	32

Ecos describes CSIRO research findings of relevance to our environment. Related findings by other bodies are included where necessary to give perspective to CSIRO work. Stories are based on reports, published research papers, and information obtained by interviewing scientists.

Technical inquiries should be sent to the CSIRO Divisions concerned. All other correspondence should be addressed to: Senior Writer, *Ecos*, P.O. Box 225, Dickson, A.C.T. 2602.

The two quarterlies *Ecos* and *Rural Research* are produced by a writing group in CSIRO's Agricultural and Biological Sciences Branch at Head Office.

Subscriptions to *Ecos*: \$3.00 a year for four copies, post-free. Single copies 80c each. Organizations with environmental interests may apply to be placed on our free mailing list.

Writers: Brian Woodruff (senior writer), Kay Hendy, Brian Lee, Robert Lehane, and James Lumbers.

Editorial assistance: Yvonne Roberts.

Designer: Willem Bloem.

Credits—Photographs from Jack Cavanagh, Tony Sinclair, Ederic Slater, Australian Information Service, Bureau of Meteorology, National Library of Australia, NASA, and South African Embassy. Other pictures came from people and organizations mentioned in the stories. Cartoons by John Wedlick.
