

ECOS

Number 14

November 1977

Spray cans and the ozone layer	3
The elusive plague rat	10
Outlook — How close is the methane alternative?	14
Spectrum — Naming our gum trees — Recovering metals from industrial effluents — Tracking city air pollution	21
Growing fuel — a future option?	24
Back box — A time for desert blooms	32

Ecos describes CSIRO research findings of relevance to our environment. Related findings by other bodies are included where necessary to give perspective to CSIRO work.

Stories are based on reports, published research papers, and information obtained by interviewing scientists.

Technical inquiries should be sent to the CSIRO Divisions concerned. All other correspondence should be addressed to: Senior Writer, *Ecos*, P.O. Box 225, Dickson, A.C.T. 2602.

Subscriptions to *Ecos*: \$4.00 a year for four copies, post-free. Cheques should be sent to CSIRO Editorial and Publications Service, P.O. Box 89, East Melbourne, Vic., 3002. Organizations with environmental interests may apply to be placed on our free mailing list.

The two quarterlies *Ecos* and *Rural Research* and the bi-monthly *Industrial Research News* are produced by a writing group in CSIRO's Science Branch at Head Office.

Writing group: Brian Woodruff (senior writer), Andrew Bell, Kay Hindmarsh, Brian Lee, Robert Lehane, and James Lumbers.

Editorial assistance: Yvonne Roberts.

Designer: John Wedlick

Credits: Pictures from Australian Information Service, John Shearer and Sons Ltd, N.A.S.A., N.O.A.A., Ederic Slater, David Whillas, and Ian Wood. Pictures also came from the scientists and organizations mentioned in the stories. Other services: Rita Raets.
