

ECOS

Number 16

May 1978

Tackling Sydney's smog	3
Getting to the bottom of a water resource	10
Outlook — Rain-making; the state of the art	15
<i>Spectrum</i> — Ammonia strippers on trial — Sharp pictures from Landsat are now available	19
Oil from coal — 3 years on	21
Arboviruses — hidden hitchhikers	25
Back box — What whips up a tornado's whirl?	32

Ecos describes CSIRO research findings of relevance to our environment. Related findings by other bodies are included where necessary to give perspective to CSIRO work.

Stories are based on reports, published research papers, and information obtained by interviewing scientists.

Technical inquiries should be sent to the CSIRO Divisions concerned. All other correspondence should be addressed to: Senior Writer, *Ecos*, P.O. Box 225, Dickson, A.C.T. 2602.

Subscriptions to *Ecos*: \$4.00 a year for four copies, post-free. Cheques should be sent to CSIRO Editorial and Publications Service, P.O. Box 89, East Melbourne, Vic., 3002. Organizations with environmental interests may apply to be placed on our free mailing list.

The two quarterlies *Ecos* and *Rural Research* and the bi-monthly *Industrial Research News* are produced by a writing group in CSIRO's Science Branch at Head Office.

Writing group: Brian Woodruff (senior writer), Andrew Bell, Kay Hindmarsh, Brian Lee, Robert Lehane, and James Lumbers.

Editorial assistance: Yvonne Roberts.

Designer: John Wedlick.

Credits: Pictures from Australian Information Service, Australian War Memorial, British High Commission, South African Embassy, State Pollution Control Commission, Barry Filshie, and Chris Lourandos. Pictures also came from the scientists and organizations mentioned in the stories.
