

ECOS

Number 21

August 1979

Towards wise use of Antarctic krill	3
Explosion pulping ideal for recycling paper	10
Tapping water from unconventional sources	13
Outlook — High price for our heavy drinking	17
Spectrum — Cadmium in sewerage sludge — Conserving our soils for the future — Saving energy with rocks — Perth's water to be purified by magnetic process	23
Surveying Australia's plants and animals	28
Back box — Wallaby embryos wait for the sun	32

Ecos describes CSIRO research findings of relevance to our environment. Related findings by other bodies are included where necessary to give perspective to CSIRO work.

Stories are based on reports, published research papers, and information obtained by interviewing scientists.

Technical inquiries should be sent to the CSIRO Divisions concerned. All other correspondence should be addressed to: Senior Writer, *Ecos*, P.O. Box 225, Dickson, A.C.T. 2602.

Subscriptions to *Ecos*: \$5.00 a year for four copies, post-free. Single copies \$1.50 each. Cheques should be sent to CSIRO Editorial and Publications Service, P.O. Box 89, East Melbourne, Vic., 3002. Organizations with environmental interests may apply to be placed on our free mailing list.

The two quarterlies *Ecos* and *Rural Research* and the bi-monthly *Industrial Research News* are produced by a writing group in CSIRO's Bureau of Scientific Services. **Writing group:** Brian Woodruff (senior writer), Andrew Bell, Jeff Culnane, Brian Lee, Robert Lehane, and James Lumbers.

Editorial assistance: Yvonne Roberts.

Designer: Brian Gosnell.
